## ***Ballot Measures – PAC Expenditures Search Released***

The Missouri Ethics Commission released today a new search, showing those Political Action Committees (PACs) making expenditures for a ballot measure. This search, coupled with the *Campaign Committee* search released in March, provides the resources to see how money is being spent on Missouri ballot measures by:

- ✓ *PAC Expenditure Search*: Reports money spent by PACs on ballot measures and if the money was spent to support or oppose the measure. PACs are formed to support or oppose ballot measures and/or candidates over multiple elections.
- ✓ *Campaign Committee Search*: Released March 2011, reports money received and spent by campaign committees for ballot measures. Campaign committees are formed to specifically support or oppose ballot measures for a specific election.

“These two important search tools shed light on the committees and the money spent for or against ballot measures”, says Julie Allen, Executive Director. The *Ballot Measures-PAC Expenditures* search is the newest step in providing transparency about the money received and spent on ballot issues.

To view the new search and its features, click [Ballot Measures – PAC Expenditures](#).
